1. Overview

Rust Consulting has standardized a format for the electronic submission of claims in securities by institutions filing on behalf of multiple clients or proprietary accounts. Electronic Claim Filing is intended for institutions, brokers and nominees only. **This is not used for individual claimants.** All Electronic Submissions must follow the instructions provided in sections 3 – 6 below.

2. Security and Integrity

Security of systems and applications and confidentiality of data is of utmost importance to Rust. Rust maintains a unified compliance posture including:

- A system Certification & Accreditation under the Federal Information Security Management Act (FISMA and NIST);
- An annual SSAE 16 SOC 2 (formerly SAS 70) Type II audit of our data and system controls and protocols;
- Compliance with and adherence to Safe Harbor Principles; and
- Compliance with Gramm-Leach-Bliley Act (GLBA) and the Health Insurance Portability and Accountability Act (HIPAA).

3. Filing Requirements

In addition to the instructions contained in the Settlement Notice and Proof of Claim, you must comply with ALL of the following or YOUR FILE WILL BE REJECTED.

1. Proof of Claim

Each filing entity must include one (1) completed Proof of Claim per submission. This Proof of Claim will serve as the master for all of the accounts included in your filing. The Proof of Claim should include the name, street address (a Post Office box is NOT acceptable), telephone number, and email address of the filing entity and be signed by an authorized signatory and must state the capacity of the person signing.

2. Authorization Documentation

Each submission must include documentation showing authority to file on behalf of the clients included in the submission.

3. Data Verification Document

Each submission must include a notarized affidavit or a signed letter on company letterhead stating the source of the data (e.g., proprietary database) and attesting to the truth and accuracy of the transactions and holdings that were submitted in the file. Please note, additional documentation may be requested to verify the information included in your data file. Failure to provide the requested documentation may result in the rejection of your submission in this Settlement and/or the option of filing your claims electronically in future settlements administered by Rust Consulting.

4. Data

Data must be submitted as an Excel spreadsheet or a fixed-length text file and include all of the fields, column headings and should also be in the same order and format as listed in Template for Electronic Claim Filers provided on the website at www.BarclaysLiborSettlement.com. Additional information regarding the eligibility criteria is provided in sections 4 and 5 below.

5. U.S. Dollar LIBOR-based instruments covered by the Settlement

The Settlement relates to U.S. Dollar LIBOR-Based Instruments, which are instruments that include any term, provision, obligation or right to be paid or to receive interest based upon the U.S. Dollar LIBOR rate. These include, but are not limited to, the following:

- **Asset Swaps** – a type of over-the-counter derivative in which one investor exchanges the cash flows of an asset or pool of assets for a different cash flow without affecting the underlying investment position.
- **Collateralized Debt Obligations ("CDOs")** – a type of structured asset back security ("ABS"). CDOs have multiple levels of risk ("tranches") and are issued by special purpose entities. They are collateralized by debt obligations including bonds and loans.
- **Credit Default Swaps ("CDSs")** – a type of over-the-counter, credit-based derivative where the seller of the CDSs compensates the buyer of the CDS only if the underlying loan goes into default or has another credit event.

- **Forward Rate Agreements (“FRAs”)** – a type of over-the-counter derivative based on a “forward contract.” The contract sets the rate of interest or the currency exchange rate to be paid or received on an obligation beginning at a future start date.
- **Inflation Swaps** – a type of over-the-counter derivative used to transfer inflation risk from one party to another through an exchange of cash flows.
- **Interest Rate Swaps** – a type of over-the-counter derivative in which two parties agree to exchange interest rate cash flows, based on a specified notional amount from a fixed rate to a floating rate (or vice versa) or from one floating rate to another. Interest rate swaps are commonly used for both hedging and speculating.
- **Total Return Swaps** – a type of over-the-counter derivative based on financial contracts that transfer both the credit and market risk of an underlying asset. These derivatives allow one contracting party to derive the economic benefit of owning an asset without putting that asset on its balance sheet.
- **Options** – a type of over-the-counter derivative based on a contract between two parties for a future transaction on an asset. The other derivative instruments, defined above, can serve as the asset for an option.
- **Floating Rate Notes** – evidence an amount of money owed to the buyer from the seller. The interest rate on floating rate notes is adjusted at contractually-set intervals and is based on a variable rate index, such as U.S. Dollar LIBOR.

Only U.S. Dollar LIBOR-based instruments that were sold in over-the-counter transactions (OTC transactions) are included in the Settlement.

6. Additional Requirements

- **ELECTRONIC CLAIM TRANSACTION LISTING REPORT:** Upon the completion of processing your file, Rust will provide you with an Electronic Claim Transaction Listing report (“DRNDEF report”) which will list all of your claims along with any deficiencies or ineligibilities that have been identified. If you do not receive this report or if the report that you receive is missing information, you must contact Rust Consulting immediately. No electronic files will be considered to have been properly submitted unless the Distribution Agent issues a DRNDEF report listing all transactions contained in the electronic file.
- **DUPLICATIVE CLAIMS:** Electronic claims are compared to paper claims received to eliminate duplicative filings. Any paper claims filed by, or on behalf of, a beneficial owner will take precedence over an electronic claim filed by a custodian, broker, nominee, or third party filer. Additionally, by signing the Proof of Claim, you are certifying that you have not submitted any additional claims covering the same purchases, acquisitions, sales or holdings and know of no other person having done so on behalf of the beneficial owner.
- **ADDITIONAL DOCUMENTATION:** Rust Consulting may request that you provide external documentation such as trade confirmations/monthly statements to verify your claim information, even if you submitted a letter or affidavit attesting to the truth and accuracy of the information provided. If you do not provide the documentation to support your trades or holdings as requested by the date specified, your claim will be rejected in its entirety. Documentation provided from the same system from which your trade data originated is NOT acceptable documentation.
- Once notification of a rejected submission has been made, whether resulting from non-compliance with the filing requirements or for any other reason, no further communication will be sent regarding the rejection. It is the responsibility of the filing entity to timely provide a replacement file.
- Rust Consulting reserves the right to reject your electronic filing and require that you submit your claim in hardcopy with complete documentation.

If you have any additional questions or need assistance regarding this settlement, please contact us via email at info@BarclaysLiborSettlement.com.

PART II: SCHEDULE OF U.S. DOLLAR LIBOR-BASED INSTRUMENTS

DOCUMENTATION TO SUPPORT YOUR TRANSACTIONS IN U.S. DOLLAR LIBOR-BASED INSTRUMENTS IS NOT REQUIRED AT THIS TIME, HOWEVER, THE CLAIMS ADMINISTRATOR MAY ASK YOU TO PROVIDE DOCUMENTATION TO SUBSTANTIATE YOUR TRANSACTIONS DURING AUDITING.

INSTRUCTIONS: List all U.S. Dollar LIBOR-Based Instruments you purchased in the United States directly from a Defendant (or a Defendant's subsidiary or affiliate), and which you owned any time during the period **August 2007 through May 2010** (Class Period). You should only list the information for the leg of the swap (or bond) where you **received** LIBOR-based payments from a Defendant during the Class Period. The Settlement does not include U.S. Dollar LIBOR-based instruments that include only a term, provision, or obligation or right to **pay** interest based on the U.S. Dollar LIBOR rate, such as business, home, student, or car loans, or credit cards. If you have an instrument for which you cannot fit the terms in the space below, attach the instrument separately and describe the terms of the LIBOR-based payments on a separate page. **If you do not know every term for a transaction, fill in the form with as many fields for which you know the answer** – the Claims Administrator will attempt to fill in any blanks, but may reject the claim if it is unable to.

An example for how to fill out the form for a plain-vanilla swap is:

Defendant Paying LIBOR	Effective Date (Month/Day/Year)	Maturity/ Cancellation Date (Month/Day/Year)	Tenor and Currency of LIBOR	Notional Amount	Frequency of LIBOR Payment Periods	Non-Standard Terms
UBS AG	9/10/06	9/10/21	3-Month USD LIBOR	\$20 Million	Quarterly	Actual/360 N146950N

PART II: SCHEDULE OF U.S. DOLLAR LIBOR-BASED INSTRUMENTS

A. SWAPS AND FORWARD RATE AGREEMENTS

(Interest Rate Swaps, Amortizing Swaps, Basis Swaps, Asset Swaps, Inflation Swaps, Total Return Swaps, Currency Swaps)¹

Table with 7 columns: Defendant Paying LIBOR, Effective Date (Month/Day/Year), Maturity/ Cancellation Date² (Month/Day/Year), Tenor and Currency of LIBOR³, Notional Amount, Frequency of LIBOR Payment Periods, Non-Standard Terms⁴. The table contains 10 empty rows for data entry.

IF YOU NEED ADDITIONAL SPACE TO LIST YOUR TRANSACTIONS, PHOTOCOPY THIS PAGE.

¹ For each swap, only complete this chart for the leg of the swap where you received LIBOR-based payments from a Defendant, with the exception of basis swaps (see below). For amortizing swaps, you must list initial notional amount and provide a schedule of the amortization, reflecting the notional amount for each payment period. For forward rate swaps, list the LIBOR payment date in the Start date, and leave "End date" and "Frequency" fields blank. For basis swaps, where both legs are tied to LIBOR, list the terms of both legs of the swap in consecutive lines, indicating for which one you are paying and receiving LIBOR-based payments. For forward rate agreement, list the LIBOR payment date in the Start date, and leave "End date" and "Frequency" fields blank. Further definitions for each of these instruments can be found in the Notice, available on the website.

² If the transaction was cancelled before the maturity date, list the cancellation date not the maturity date.

³ If any multiplier is applied to the LIBOR-based payments (e.g., 66% of 3-month LIBOR), or spread (e.g., 8 basis points added to 3-month LIBOR), include that in this column.

⁴ The following standard terms will be used unless otherwise indicated here. The standard "Accrual Convention" (which measures the length of the accrual period) is actual/360 (meaning the actual number of days in the interest accrual period is divided by 360 to calculate payments). The standard "lookback days" (which is the gap between LIBOR fixing date and rate effective date) is 2 days. The standard date convention is modified following, and the standard holiday calendar is New York and London. The standard compounding is flat.

IF YOU NEED ADDITIONAL SPACE TO LIST YOUR TRANSACTIONS, PHOTOCOPY THIS PAGE.

5 If you purchased the instrument from a non-panel bank, indicate the name of the seller as well as the defendant paying LIBOR.

6 If you purchased the instrument after it issued, please enter both the issue date and purchase date.

7 If you sold the instrument or it was called before it matured, use the earlier of the maturity, call and sale date.

8 If any multiplier is applied to the LIBOR-based payments (e.g., 66% of 3-month LIBOR), or spread (e.g., 8 basis points added to 3-month LIBOR), include that in this column.

9 The following standard terms will be used unless otherwise indicated here. The standard "Accrual Convention" (which measures the length of the accrual period) is actual/360 (meaning the actual number of days in the interest accrual period is divided by 360 to calculate payments). The standard "lookback days" (which is the gap between LIBOR fixing date and rate effective date) is 2 days. The standard date convention is modified following, and the standard holiday calendar is New York and London. The standard compounding is flat.
